Subjects: Annual Report on Juvenile Crime Prevention Council Grants

Date: February 1, 2025

Pursuant to General Statute 143B-852, the Department of Public Safety to report on Juvenile Crime Prevention Council grants.

(a) On or before February 1 of each year, the Department of Public Safety shall submit to the Chairs of the Joint Legislative Oversight Committee on Justice and Public Safety and the Chairs of the Senate and House of Representatives Appropriations Subcommittees on Justice and Public Safety a list of the recipients of the grants awarded, or preapproved for award, from funds appropriated to the Department for local Juvenile Crime Prevention Council (JCPC) grants, including the following information:

- (1) The amount of the grant awarded.
- (2) The membership of the local committee or council administering the award funds on the local level.
- (3) The type of program funded.
- (4) A short description of the local services, programs, or projects that will receive funds.
- (5) Identification of any programs that received grant funds at one time but for which funding has been eliminated by the Department.
- (6) The number of at-risk, diverted, and adjudicated juveniles served by each county.
- (7) The Department's actions to ensure that county JCPCs prioritize funding for dispositions of intermediate and community-level sanctions for court-adjudicated juveniles under minimum standards adopted by the Department.
- (8) The total cost for each funded program, including the cost per juvenile and the essential elements of the program.

(b) On or before February 1 each year, the Department of Public Safety shall send to the Fiscal Research Division of the Legislative Services Commission an electronic copy of the list and information required under subsection (a) of this section.

Introduction

This Juvenile Crime Prevention Council (JCPC) Grant report responds to General Statute 143B-852. The report focuses on data from FY 2023-24 and FY 2024-25. Of interest in this report are sections that identify each county's JCPC allocation, and amounts awarded to each program within the county for FY 2024-25, membership of each county's Juvenile Crime Prevention Council, and short descriptions and contact information of evidence-based, research-supported programs funded within each county for FY 2024-2025. Additionally, the report identifies JCPC programs that were previously funded in FY 2023-2024 but for which funding has been eliminated for the current fiscal year by decision of local JCPCs and agreed upon by the Department. Also included is a section identifying a breakdown of youth served by legal status including the number of at-risk, diverted, and adjudicated juveniles served statewide and by county. The Department also articulates its actions in partnership with county JCPCs and Boards of Commissioners to prioritize funding for programs that address intermediate and community-level disposition sanctions for court-adjudicated juveniles. Finally, the total cost for each funded program type is presented, including the total cost per juvenile served calculation based on total revenues supporting JCPC funded programs in addition to the DJJ cost per juvenile served. The report ends with additional information about each program type discussed in the report. In sum, this report responds to General Statute 143B-852 (a) (1) through (8).

In 2017, North Carolina's General Assembly passed the Juvenile Justice Reinvestment Act by including the language in the appropriations bill. This legislation allowed for most 16-and-17-year-olds charged with crimes to be served in juvenile justice system instead of being charged as adults, legislation referred to as Raise the Age, which raised the age of juvenile jurisdiction from 16 to 18 in our state. Similarly, new legislation was passed in 2021, SB207, which specifically added raising the minimum age of juvenile jurisdiction from age 6 to 10 for most juveniles. Together, these two legislative changes to the North Carolina's juvenile code have offered greater opportunities for Juvenile Crime Prevention Councils to tailor programming to meet the need to an older juvenile population, in addition to meeting the needs of younger at-risk youth in local programming continuums. JCPCs continue to work closely with School Justice Partnerships (SJPs) to provide programming resources and diversion programming in an effort to reduce school-based complaints. The Juvenile Community Programs Section, at the request of key staff at the Administrative Office of the Courts, continue to support statewide SJP educational efforts through all 100 JCPCs to bolster greater interest in the establishment of School Justice Partnerships in those judicial districts that have yet to established them.

In 2020, Session Law 2020-83 allowed for increased flexibility of membership and designees of the local Juvenile Crime Prevention Councils, which is reflected in Section 2 of this report. The law also provides greater flexibility to JCPCs, allowing and encouraging collaboration across counties and judicial districts to fund providers who serve multiple counties and/or districts. The Department has responded to facilitate greater collaboration among and between county JCPCs by fully integrating a multi-county program agreement functionality into NCALLIES (**NC A Local Link to Improve Effective Services**), the Department's real-time, web-based application.

Juvenile Crime Prevention Council (JCPC) Grant Reporting and Certification

§ 143B-852. Department of Public Safety to report on Juvenile Crime Prevention Council grants.

- (a) On or before February 1 of each year, the Department of Public Safety shall submit to the Chairs of the Joint Legislative Oversight Committee on Justice and Public Safety and the Chairs of the House of Representatives Appropriations Committee on Justice and Public Safety and the Senate Appropriations Committee on Justice and Public Safety a list of the recipients of the grants awarded, or preapproved for award, from funds appropriated to the Department for local Juvenile Crime Prevention Council (JCPC) grants, including the following information:
 - (1) The amount of the grant awarded.
 - (2) The membership of the local committee or council administering the award funds on the local level.
 - (3) The type of program funded.
 - (4) A short description of the local services, programs, or projects that will receive funds.
 - (5) Identification of any programs that received grant funds at one time but for which funding has been eliminated by the Department.
 - (6) The number of at-risk, diverted, and adjudicated juveniles served by each county.
 - (7) The Department's actions to ensure that county JCPCs prioritize funding for dispositions of intermediate and community-level sanctions for court- adjudicated juveniles under minimum standards adopted by the Department.
 - (8) The total cost for each funded program, including the cost per juvenile and the essential elements of the program.

143B-852 (a) (1) The amount of the grant awarded.

*The total funds allocated in Guilford for fiscal year 2024-25 is \$1,327,413.

The annual JCPC allocation amount of \$1,289,575 is supplemented by discretionary funding for the Teen Traffic Court program in the amount of \$37,838. At the time of this report preparation, the Treatment Alternatives for Sexualized Kids (TASK) program was in approval process for \$39,750. (Current distributed amount + TASK) - Discretionary Traffic Teen Court = Annual Allocation. (\$1,287,663 + \$39,750) - \$37,838 = \$1,289,575.

143B-852 (a)(7) The Department's actions to ensure that county JCPCs prioritize funding for dispositions of intermediate and community-level sanctions for court-adjudicated juveniles under minimum standards adopted by the Department.

This section describes the Annual Planning Process structured by the Department to be used by the Juvenile Crime Prevention Council (JCPC) in each county in the state to ensure that it is meeting statutory requirements for prioritizing funding for adjudicated youth as well as responding to the prevention/intervention needs of youth at risk for juvenile delinquency in the community. Each county is required by the Department to certify through an annual, documented certification process, that the steps taken in the local structured planning process result in prioritization of funding for adjudicated youth. The Department, through its area and state offices, provides ongoing training, technical assistance, and program monitoring to further ensure that county JCPCs and County Boards of Commissioners adhere to these statutory responsibilities.

Each JCPC is required by General Statute to complete many critical tasks during the biennial planning cycle. Under these mandates, JCPCs choose to complete the following tasks on an annual or biannual cycle: (1) assess the risks for delinquency and the needs of delinquent youth in the county (analyze the risk and needs data produced by the YASI assessment tool, data that is generated by youth assessed within each individual county; in addition to an assessment of community risk factors that contribute to delinquency), (2) assess local resources available to serve target youth populations in the county, (3) identify service gaps in the county's service continuum, (4) identify the services needed to fill gaps in the service continuum, (5) determine the priority services to address the needs of court-involved youth and youth most likely to become court involved which are then advertised through a Request for Proposal (RFP) process to solicit proposals from service providers to address priority service needs, and finally (6) complete a plan approved by the county government for addressing delinquency in that county that also identifies the services and recommended funding awards from the county JCPC allocation.

JCPCs are deliberately structured to address the legislated mandates in the execution of its duties. The JCPC decision-making process which leads to the approval of funding for non-profits or government-sponsored entities to address the needs of court-involved and at-risk youth requires multiple tiers of decision-making. This process ensures that the county allocation is efficiently and soundly invested across the service continuum to best match services to the needs of youth in the community. There are many factors that influence this decision-making process; however, the methodology of utilizing JCPC by-laws, conflict of interest disclosure, and subcommittee board structure allows for the deliberations and final award of funding to programs to be thorough and sound. All funding recommendations are reviewed and approved by County Commission Boards, providing additional oversight to the decision-making process.

Technical assistance, training, and general oversight under the guidance of the Department and its area consultants are consistently used to ensure compliance with legislative mandates.

The following summarizes the process through which a JCPC produces its final funding plan:

- The JCPC adopts and publishes a Request for Proposals (RFP) based on the findings and recommendations of the annual Risk and Needs Assessment conducted by the JCPC.
- A JCPC subcommittee receives and screens service proposals and prospective service providers for eligibility and matches them against service needs addressed in the RFP.
- The JCPC invites those eligible services providers to present their proposals to the JCPC (full council or subcommittee)
- The JCPC collaborates with the county government to secure match support (10%, 20%, or 30% cash and/or in-kind match from local/county revenue sources to secure funding). Some counties provide cash match to the total allocation and authority is given to the local JCPC to assign the county cash match.
- A JCPC subcommittee deliberates on the proposals in order to develop a recommendation for the full JCPC. Committee deliberations include review and examination of the following:
 - Type of program and match against priority dispositional option service needs.
 - Alignment of the program services with model programs, evidence-based programs, and evidence-based practices.
 - Proposed budget expenses, program revenue sources and blending of revenues.
 - Monitoring reports/court counselor program utilization surveys for presently funded programs to ensure that programs are fiscally and programmatically sound (monitoring entails another subcommittee task).
 - Service capacity of program services and target populations served.
 - Analysis of community programs/services availability other than JCPC-funded programs that serve the needs of adjudicated and at-risk youth.
- The subcommittee’s recommendations for approving proposals and funding amounts are presented to full JCPC for consideration and adoption.
- The JCPC completes and submits its written County Plan including the JCPC’s funding recommendations to the County Board of Commissioners for its review and approval.

In presenting its final funding plan to the Department, the JCPC and the county certifies that the JCPC has completed and met the requirements of the NC General Statutes and of the Department and ensures that the service providers who are recommended for funding meet eligibility requirements from a programmatic, administrative, and fiscal perspective.

Additionally, the Department has the capability of using technology as an additional tool to ensure that funded program providers meet programmatic, administrative, fiscal eligibility and compliance requirements. NCALLIES allows for electronic oversight of the funding process from the initial stage of an electronic application for JCPC funds, all the way through the full execution of an electronically signed program agreement with the use of DocuSign. NCALLIES aides with insuring program provider compliance by providing client demographic, measurable objective, and fiscal management reporting. NCALLIES and DocuSign have become efficient,

time and resource-saving tools utilized by local JCPCs, county officials, service providers, and the Department to ensure compliance. The Department continues to build greater functionality into NCALLIES, including a more recent enhancement that will support a multicounty program agreement feature that will enable providers to provide programming within multiple counties and across judicial districts in accordance with HB 593/ S.L. 2020-83.

In summary, the Department implements a highly structured planning process to ensure that each county JCPC meets statutory requirements and Department minimum standards while conducting a detailed risk and needs assessment, community resources assessment, and gaps in services identification. These tools are then used as the foundation of its decision-making process in selecting and approving funding for service providers who give priority to meeting the specific needs of court-adjudicated youth as well as pre-adjudicated, at-risk youth in the community.

The department works in partnership with each local JCPC to provide program oversight through program monitoring, technical assistance, and training that further ensures that statutory requirements and Department minimum standards are adhered to and implemented effectively. Ultimately, these processes and strategies create communities that have decreased juvenile delinquency and increased public safety.

143B-852 (a)(8) The total cost for each funded program, including the cost per juvenile and the essential elements of the program.

This section details the total FY 2023-2024 JCPC cost per program, including the budget from all revenue sources: state, local, and federal (including local cash and in-kind contributions), the total Department allocation to county JCPCs for the fiscal year, the number of youth participants, the average cost per youth (all revenue sources) and the average Department cost per youth. It also includes a summary of the essential elements of all JCPC program services and structures. The FY 2023-2024 JCPC Program Cost Analysis is depicted in the chart below.

Note: The total budget column in the cost analysis below includes the total Department allocation for FY 2023-2024 as well as all other revenue sources (e.g., local cash, local in-kind, non-JCPC grants, and other state/federal funding). JCPC Administrative/Certification funding is not included in the cost analysis below. The Department allocation for the JCPC Administrative/Certification funding was \$677,486.00 for FY 2023-2024.

As evidenced in the chart above, JCPCs are using the Department allocation to leverage other sources of revenue for programs and services to meet the needs of at-risk and adjudicated youth in their counties. In fact, they are leveraging over \$17.2 million in funding from other revenue sources (local, state, and federal), which represents 37% of their total funding. This represents another significant indicator of the collaboration among county agencies and organizations represented on the JCPC as well as the effectiveness of the state-local partnership in this ongoing effort to improve public safety and reduce juvenile delinquency in our state. Also indicated in the chart above is the relative average cost per youth (all funding sources) as well as the average Department cost per youth. These data reveal an average cost per youth (all funding sources) of \$2,049.82 and an average Department cost per youth of \$1,284.33.

Types of program services and structures represented in the JCPC Program Cost Analysis table above can be found in the following program descriptions, including essential programming elements within each of the of JCPC program component types.

Essential Elements of JCPC Program Service and Structure Types

RESIDENTIAL SERVICES COMPONENTS:

- **Group Home Care:** Twenty-four-hour care for a residential placement lasting six to eight months. The placement is therapeutic and may have a structured family-like environment for youth. Includes intervention with client's family during and after placement and targets a reduction in offending behavior and recidivism.
- **Temporary Shelter Care:** Group home care and shelter (up to 90 days) for juveniles who need to be temporarily removed from their homes during a family crisis.
- **Runaway Shelter Care:** Shelter care for juveniles who have run away from home, are homeless, or otherwise need short term care (15 days or less) while arrangements are made for their return home.
- **Specialized Foster Care:** Care for youth with serious behavioral or emotional problems through foster parents whose special training is designed to help them understand and provide needed support for children who are placed in their care.
- **Temporary Foster Care:** Short-term (up to 90 days) emergency foster care for diverted or adjudicated juveniles who need to be temporarily removed from their homes during a family crisis. Foster parents have been specially trained to understand and support the youth placed in their care.

CLINICAL TREATMENT COMPONENTS:

- **Counseling:** Professional, clinical treatment with a licensed counselor or therapist. Counseling services may be individual, family, group, or substance abuse counseling. The focus of counseling is to resolve any of a range of problems including but limited to interpersonal relationships, problem behavior, or substance use or abuse.
- **Sex Offender Treatment:** Outpatient assessment and/or therapeutic services to juvenile offenders targeting inappropriate sexual conduct and offending behavior with a clear focus on rehabilitation and accountability of the offender. Practiced primarily in groups, the treatment is family focused, has designated follow-up procedures, and is generally legally mandated.
- **Home-Based Family Counseling:** Short term, intensive services focusing on family interactions/dynamics and their link to delinquent behavior. Involves the entire family and is typically conducted in the home. May also include the availability of a trained individual to respond by phone or in person to crises. The goal is to prevent delinquent and undisciplined behavior by enhancing family functioning and self-sufficiency.
- **Substance Abuse Treatment:** In/Out-patient therapeutic services provided to juvenile offenders targeting substance abuse issues, including chemical dependency, alcoholism, and habitual or experimental use of other controlled substances. Personnel providing treatment must be licensed or certified to provide these services.

EVALUATION OR ASSESSMENT COMPONENTS:

- **Clinical Assessments or Psychological Evaluations:** Clinical Evaluations and Assessments, including Psychological Evaluations performed to help court counselors and judges recommend the most appropriate consequences and treatment for court involved youth.

RESTORATIVE COMPONENTS:

- **Mediation/Conflict Resolution:** Services offering a private process of negotiation conducted by a neutral, third-party person, a mediator. These programs offer immediate and short-term involvement with youth to focus on resolving negative and/or offending behaviors. Mediation is a consensual decision-making process by parties who work towards a mutual understanding to resolve a problem or dispute. Mediators do not counsel or give advice but facilitate communication among parties as they work to reach their own decisions regarding resolution of their conflict.
- **Restitution/Community Service:** Services that provide supervised worksites in which juveniles are held accountable for their actions that have affected the community and/or victim(s). Through supervised, assigned work, a juvenile earns credit towards payment of monetary compensation for victims (if required) and performs work for the benefit of the community because of his offense. Juveniles are supervised by adult staff or trained adult volunteers.
- **Teen Court:** Services that provide diversion from juvenile court where trained adult and youth volunteers act as officials of the court to hear complaints. Recommended sanctions include, but are not limited, to community service and restitution (if applicable) for youth who have admitted committing minor delinquency and undisciplined complaints. Professional adult staff provides supervision of the court proceedings and any subsequent community service and/or restitution.

STRUCTURED ACTIVITIES COMPONENTS:

- **Mentoring:** Services that provide opportunities for matching of adult volunteers with delinquent or at-risk youth on a one-on-one basis. After recruitment, screening and training, the mentor spends time with the juvenile on a regular basis and engages in activities such as sports, movies, and helping with homework. The mentor provides support, friendship, advice, and/or assistance to the juvenile.
- **Interpersonal Skill Building:** Curriculum-based programming that assists juveniles with developing the social skills required for an individual to interact in a positive way with others. The basic skill model begins with an individual's goals, progresses to how these goals should be translated into appropriate and effective social behaviors, and concludes with the impact of the behavior on the social environment. Typical training techniques are instruction, modeling of behavior, practice and rehearsal, feedback, and reinforcement. May also include training in a set of techniques, such as conflict resolution or decision making, that focus on how to effectively deal with specific types of problems or issues that an individual may confront in interacting with others.
- **Parent/Family Skill Building:** Services that focus on psychological, behavioral, emotional, or interpersonal issues faced by a parent(s) or guardian (s) of a juvenile engaging in problem behaviors or delinquent acts. This service provides parenting skills development, including communication and discipline techniques. May include sessions for parents only and/or sessions for parents and family members.
- **Experiential Skill Building:** Services that provide activities to juveniles as a basis to develop skills. Activities may be highly related to the acquisition of the skill (i.e., independent living skills training taught through life skills practice such as balancing a checkbook, laundry) or activities may include adventure, physical or challenging activities aimed to instruct, demonstrate, and allow the practice of effective interpersonal, problem-solving, and/or communication skills in an effort to build pro-social interpersonal skills and behaviors.

- **Tutoring/Academic Enhancement:** Services that assist juveniles with understanding and completing schoolwork and/or classes. May assist juveniles and parents with study skills and structure for studying and completing academic assignments. May also provide trips designed to be an enrichment of or supplemental experience beyond the basic educational curriculum.
- **Vocational Skills Development:** Services that focus on preparing the juvenile to enter the work force through actual employment opportunities, job placement, non-paid work service (non-restitution based), job training or career counseling. These programs provide training to juveniles in a specific vocation, career exploration or career counseling, and/or job readiness.

COMMUNITY DAY PROGRAMS:

- **Juvenile Structured Day:** Services that provide a highly structured and supervised setting for juveniles who are short-term or long-term suspended from school or are exhibiting behaviors that might otherwise result in placement in detention. Typically, these components serve youth who are court-involved, and referrals are made from juvenile court counselors. These components may operate on a full or partial day schedule. Interventions include individual and/or family counseling, substance abuse education/treatment, restitution/community service, tutoring, alternative education, vocational development, and structured activities.
