Title: **Study Release**
Issue Date: 06/15/17
Supersedes: 09/18/07

POLICY AND PROCEDURE

.1301 GENERAL

- (a) This rule sets forth the requirements, conditions, and procedures for inmate participation in the study release program.
- (b) Study release is a community based program of rehabilitation that includes any situation in which an inmate participates in an academic or vocational training program away from the correctional facility and is not supervised during the classroom training period by a correctional employee or an agent of the Department of **Public Safety**. Study release program activities include such programs as: sheltered workshops, on-the-job training, learning lab activities, specialized enrichment programs, and community college or university level course work leading to a certificate or degree. Authority to grant approval for inmates to participate in the study release program has been extended to Region Directors and Facility Superintendents from the Secretary through the Director of Prisons.

.1302 ELIGIBILITY REQUIREMENTS

Inmate participation in the study release program is subject to the following requirements:

- (a) The inmate must be in minimum custody, level III and must have participated in other community based activities outside the correctional facility.
- (b) The inmate must have the potential for release through parole, work release or sentence expiration following the completion of the designated study release program.
- (c) For those inmates who are found to be eligible and who are under consideration for study release participation, the following factors must be determined:
 - (1) The course of study which the inmate wishes to pursue is not available on-site at an appropriate correctional facility;
 - (2) The course of study for the participant will significantly enhance the inmate's opportunity of being a productive citizen upon release;
 - (3) There is reasonable cause to believe that the inmate has the capability of successfully completing the designed study release program; and
 - (4) There is reasonable cause to believe that the inmate will honor all the conditions of the study release participation and not abuse the privilege.

- (d) For those inmates who are court-recommended for study release participation, additional consideration will be afforded inmates in this category provided that the inmate has met all other prerequisites for study release. A court order for study release is neither a prerequisite nor a mandate for an inmate to participate in the study release program.
- (e) Prior to final approval for Study Release participation, the IM06 screen (Victim County Conflict) will be reviewed to ensure that if there are victim conflicts relating to housing and community based program participation that those factors will be considered during the review. For additional information, refer to the DOP Victim policy **D.0900**.
