

N.C. Department of Public Safety
Division of Adult Correction and Juvenile Justice
FY 2020-2021 JCPC-Endorsed Level II Dispositional Alternative
Programs
Request for Proposals

I. Introduction and Scope of Services

The 2011 Session of the North Carolina General Assembly required that the Department of Juvenile Justice and Delinquency Prevention (consolidation in 2012 created the Department of Public Safety) through SESSION LAW 2011-391 expend funds to serve high-risk adjudicated youth through four different options. This Request for Proposals (RFP) seeks to address two of those options: 1) Regional programs that are collaborative of two or more Juvenile Crime Prevention Councils which provide **Level II intermediate dispositional alternatives** for juveniles; or 2) Juvenile Crime Prevention Council funds to be used for **Level II intermediate dispositional alternatives** for juveniles listed in N.C.G.S. §7B-2506 (13) through (23). See **Attachment H**.

The Juvenile Community Programs Section conducted an analysis of the risk and needs data of juvenile offenders receiving Level II Dispositions in collaboration with the Department's Juvenile Court Services Section. Analysis of each Judicial District and Area revealed gaps in service delivery for various identified services within the Judicial District. Based on this analysis, the following service needs were identified for **JCPC-Endorsed Level II Dispositional Alternative funding**: Vocational Development, Gang Specific Services, Specialized Foster Care, Therapeutic Foster Care, Temporary Foster Care, Temporary Shelter Care, Short-term Group Home Care, Multipurpose Home, Home-Based Family Counseling (Multi-Systemic Therapy and other), Family Counseling, Experiential Skill Building, Cognitive Behavioral Therapy, Juvenile Structured Day Reporting Center Services, and Restitution & Community Service. These proposed services have been identified by Judicial District and regions. Priority shall be given to those providers that are able to address these service needs across multiple counties within a given Judicial District or multiple counties across multiple Judicial Districts. All proposed services are found in **Attachment B: Area and Judicial District Level II Dispositional Alternative Identified Service Needs**.

II. Priorities

Under this RFP, priority will be given to applications proposing programming which:

- a) Serve the required target population; (see **Bullet III: Target Population, Proposed Programming and Service Area**)
- b) Provide evidence-based/evidence supported programming which will reduce recidivism for youth served;
- c) Deliver intensive services (see **Attachment E: Priority Services and Definitions** for acceptable service types);
- d) Provide the identified services by Judicial District(s) and are regional programs that are delivered through the collaborative efforts of two or more Juvenile Crime Prevention Councils; and
- d) Include on-going collaboration with court services personnel and other community partners.

4. Selected Level I adjudicated juveniles, with a Medium/High Risk or a Medium/High Needs Score may be referred.

Proposed programming must:

- a) Include evidence-based/supported approaches for residential and/or community-based intensive services and/or re-entry services (step-down services from residential placement) for target population juveniles and their families as found in **Attachment B: Area and Judicial District Level II Dispositional Alternative Identified Service Needs**;
- b) Fill a gap in the service delivery continuum within the local community (services that are a duplication of efforts already being undertaken in the local community will not be considered for funding);
- c) Serve only the target population;
- d) Offer a service component that is therapeutic and family-focused; and
- e) Address the needs of the target population.

Service Area:

If the program serves more than a single county, the service area must:

- a) Encompass the area as defined by a Judicial District(s), identifying a lead county for which the disbursement of awarded funds will be delivered through the local county finance office; and/or
- b) Be regional and the provider must engage collaboratively with two or more Juvenile Crime Prevention Councils within or among Judicial District(s) to provide the identified Level II intermediate dispositional alternatives for juveniles within that/those Judicial District(s). **See Attachment A: DPS Area Counties and Judicial Districts**

VII. Evaluation

Applicants will be evaluated on their overall performance and evidence-based/supported approach using the latest juvenile justice research. Annually, the Department of Public Safety conducts an evaluation of JCPC-Endorsed Level II Dispositional Alternatives Programs and considers whether participation in each program results in a reduction of court involvement among juveniles. The Department also determines whether the programs are achieving the goals and objectives of the Juvenile Justice Reform Act, S.L. 1998-202. The result of this annual evaluation is reported to the Chairs of the Joint Legislative Oversight Committee on Justice and Public Safety and the Chairs of the Senate and House of Representatives Appropriations Subcommittees on Justice and Public Safety by March 1 of each year. (2013-360, s. 16D.1.) To review the report, please visit the DPS website on or after March 1, 2020 at: <https://www.ncdps.gov/juvenile-justice/data-statistics-reports>.

The Department also supports best practice models by including the Standardized Program Evaluation Protocol (SPEP) that demonstrates how specific program characteristics are effective in reducing recidivism.

Applicants must describe what model or evidence-based/supported approaches the program is based upon and incorporate core components in *Section IV. #9 Best Practice Model* of the program application.

See Attachment F: Core Components

Experiential Skill Building: Services that provide opportunities to juveniles using activities to develop skills. The activities may be highly related to the acquisition of the skill (i.e. Independent living skills training taught by having juveniles practice life skills such as laundry, washing dishes, balancing a checkbook) or may include adventure activities (such as rock climbing, rafting, backpacking, etc.) aimed at increasing self-esteem and building interpersonal skills to promote more appropriate behavior. (Length of Stay= Minimum 12 weeks unless implementing a model program & following model specifications, Frequency of Contact= no less than 2 hours weekly)

POSSIBLE SPEP PRIMARY SERVICE CLASSIFICATIONS

for services which may be provided in the above types. Consider the following SPEP service types whether or not the service meets the optimal dosage.

- Challenge Programs (Optimal Target Weeks = 4, Optimal Target hours=60)
Could also have possible qualifying Supplemental Service of Group Counseling

Tutoring/Academic Enhancement: Services intended to supplement full time academic program by aiding with understanding and completing schoolwork and/or classes. (Length of Stay= Minimum of 20 weeks, Frequency of Contact= No less than 2 hrs./week)

POSSIBLE SPEP PRIMARY SERVICE CLASSIFICATIONS

for services which may be provided in the above types. Consider the following SPEP service types whether or not the service meets the optimal dosage.

Could also have possible qualifying Supplemental Service of Job Training, Work Experience, Vocational Counseling

Vocational Development: The overall emphasis focuses on preparing the juvenile to enter the work force by providing actual employment, job placement, non-paid work service (non-restitution based), job training or career counseling. These programs provide training to juveniles in a specific vocation, career exploration or career counseling, and/or job readiness. (Length of Stay= Minimum 12 weeks unless implementing a model program & following model specifications, Frequency of Contact= no less than 2 hours weekly)

POSSIBLE SPEP PRIMARY SERVICE CLASSIFICATIONS
for services which may be provided in the above types. Consider the following SPEP service types whether or not the service meets the optimal dosage.

- Vocational Counseling (Optimal Target Weeks=20, Optimal Target hours = 40)
Could also have possible qualifying Supplemental Service of Remedial Academic Services
- Job Training (Optimal Target Weeks=25, Optimal Target hours=400)
Could also have possible qualifying Supplemental Service of Remedial Academic Services
- Job Placement (Optimal Target Weeks=26, Optimal Target hours=520)

RESTORATIVE PROGRAMS
Programs that offer immediate and short-term involvement with juveniles to focus on negative and/or offending behaviors with the aim of resolution of the presenting problem and extinction of behavior.

This is a guide to aid in determining whether or not a JCPC funded program provides a SPEP service. Classification is based only upon the service, intervention, or treatment being provided. Do not consider the current dosage when classifying the SPEP service type. Dosage is addressed in another part of the SPEP instrument.

Restitution/Community Service

Restitution - Programs that provide opportunities for offender to be accountable for their actions to the community and/or victim(s) through forms of payments or community service work that earns money to repay the victim(s).

Services should be provided for diverted and/or adjudicated youth.

(Length of Stay: Diverted youth and Teen Court referrals= no more than 6 months, Court supervision= one year unless otherwise ordered; Frequency of Contact= minimum twice per month and no less than 8 hours per month)

POSSIBLE SPEP PRIMARY SERVICE CLASSIFICATIONS
for services which may be provided in the above types. Consider the following SPEP service types whether or not the service meets the optimal dosage.

- 4. Staff Evaluation.** In **Section IV. #9 Best Practice Model** of the program application, the applicant must briefly describe how staff will be evaluated on a specified schedule for compliance with the program/JCPC policies and model/protocol. Staff development plans are to be documented and implemented to address deviations and violations of program policies, models, or protocols. Overall work performance is to be formally and specifically appraised. Areas of improvement are to be identified including the knowledge, skills, and abilities necessary for enhancing program service delivery including, but not limited to, customer service.
- 5. Program Effectiveness.** In **Section IV. #9 Best Practice Model** of the program application, the applicant must briefly describe program protocol for determining and evaluating the effectiveness of its delivery of program services with all accepted referrals. ATTACHMENT H: G.S. §7B-2506 (13) through (23)

G.S. §7B-2506 (13) through (23). Dispositional alternatives for delinquent juveniles.

The court exercising jurisdiction over a juvenile who has been adjudicated delinquent may use the following alternatives in accordance with the dispositional structure set forth in G.S. 7B-2508

- (13) Order the juvenile to cooperate with placement in a wilderness program.
- (14) Order the juvenile to cooperate with placement in a residential treatment facility, an intensive nonresidential treatment program, an intensive substance abuse program, or in a group home other than a multipurpose group home operated by a State agency.
- (15) Place the juvenile on intensive probation under the supervision of a juvenile court counselor.
- (16) Order the juvenile to cooperate with a supervised day program requiring the juvenile to be present at a specified place for all or part of every day or of certain days. In determining whether to order a juvenile to a particular supervised day program, the court shall consider the structure and operations of the program and whether that program will meet the needs of the juvenile. The court also may require the juvenile to comply with any other reasonable conditions specified in the dispositional order that are designed to facilitate supervision.
- (17) Order the juvenile to participate in a regimented training program.
- (18) Order the juvenile to submit to house arrest.
- (19) Suspend imposition of a more severe, statutorily permissible disposition with the provision that the juvenile meet certain conditions agreed to by the juvenile and specified in the dispositional order. The conditions shall not exceed the allowable dispositions for the level under which disposition is being imposed.
- (20) Order that the juvenile be confined in an approved juvenile detention facility for a term of up to 14 24-hour periods, which confinement shall not be imposed consecutively with intermittent confinement pursuant to subdivision (12) of this section at the same dispositional hearing. The timing of this confinement shall be determined by the court in its discretion.
- (21) Order the residential placement of a juvenile in a multipurpose group home operated by a State agency.
- (22) Require restitution of more than five hundred dollars (\$500.00), full or partial, payable within a 12-month period to any person who has suffered loss or damage as a result of an offense committed by the juvenile. The court may determine the amount, terms, and conditions of restitution. If the juvenile participated with another person or persons, all participants should be jointly and severally responsible for the payment of the restitution; however, the court shall not require the juvenile to make restitution if the juvenile satisfies the court that the juvenile does not have, and could not reasonably acquire, the means to make restitution.
- (23) Order the juvenile to perform up to 200 hours supervised community service consistent with the juvenile's age, skill, and ability, specifying the nature of work and the number of hours required. The work shall be related to the seriousness of the juvenile's offense.
