

N.C. Department of Public Safety

Division of Adult Correction and Juvenile Justice

FY 2022-2023 Intensive Intervention Services

Request for Proposals

Introduction and Scope of Services

The Department of Public Safety, Division of Adult Corrections and Juvenile Justice, Community Programs Section (hereafter, Department) ensures that every community in North Carolina has access to a continuum of services for its juvenile population. The continuum of services includes those services titled Intensive Intervention Services under Session Law 2020-83 (https://www.ncleg.gov/Sessions/2019/Bills/House/PDF/H593v7.pdf).

Intensive Intervention Services are evidence-based or research-supported community-based or residential services that are necessary for a juvenile in order to (i) prevent the juvenile's commitment to a youth development center or detention facility, or (ii) facilitate the juvenile's successful return to the community following commitment. Intensive Intervention Services shall be used for the purpose of providing intensive intervention services for juveniles of any disposition level, based on the needs of the juvenile, as ordered pursuant to G.S. 7B-2506 (See Attachment A).

With the Raise the Age Legislation (https://www.ncdps.gov/our-organization/juvenile-justice/key-initiatives/raise-age-nc) in effect, an increasingly important piece of the continuum in Juvenile Justice is intensive intervention services. All adjudicated juveniles ages 10 and up, including juveniles who are ages 18 to 21 and still under the jurisdiction of juvenile court, may be accepted by Intensive Intervention Services, as appropriate for the proposed model.

The Department reserves the right to release RFPs that are location or program type specific based on priority needs identified.

In Section IV. #2 Operation of the program application the applicant must briefly describe either a manual or protocol that designates the method and manner of service delivery including the suggested number of sessions, content, and flow. Evidence of the said manual, or protocol, may include: treatment/intervention outline, curriculum, workbook/instructor's manual, lesson plan(s), or, a script. Individual Service/Treatment Plans are expected to show evidence of involvement of the juvenile and family in planning and are to include the client- specific concerns to be addressed, the intervention strategies to be utilized by the program staff to address those issues, and the planned/recommended frequency/duration of contact. Interventions, strategies, curriculum, frequency and duration should clearly be consistent with the manual/protocol.

2) Enhanced Assessments for those juveniles that are adjudicated with a suspicion of an SED/SMI/IDD/DD diagnosis and meet the criteria for Youth Development Centers or Psychiatric Residential Treatment Facilities.

Target Population

a) Juveniles being served under this program priority are already adjudicated and are waiting on their disposition hearing

AND

b) Are identified as needing an enhanced assessment before an appropriate disposition can be decided and an order for possible commitment to the most secure facilities in the juvenile justice system, Youth Development Centers or Psychiatric Residential Facilities.

NOTE: This target population was created by Senate Bill 207.

<u>Assessment Description</u>

Assessments under this program priority are intended to be more in depth than a Comprehensive Clinical Assessment (CCA). CCAs are typically a snapshot assessment at a point in time of what is happening for a juvenile. For juveniles in this targeted population the assessment shall be a comprehensive assessment of the juvenile's history which will guide the <u>judicial decision-making process</u> as to whether the diagnosis significantly contributed to the behaviors exhibited by the juvenile for which the juvenile is being adjudicated and upon which the disposition is being rendered in the juvenile court system.

Providers must already be completing these types of assessments in the community and be recognized in network with an identified MCO(s).

Assessments proposed under this program priority must include:

- a) A trauma screening
- b) An IDD/DD screening or rule out ability
- c) A TBI Flagging Question or Questions
- d) The required elements of the assessment under MCO Medicaid Funding
- e) The SED Checklist found here
- f) Specific wording guiding a judge on whether a juvenile has an SED or SMI or whether an IDD/DD or TBI is suspected and should be assessed further
- g) Assessments under this program priority must take a multidisciplinary approach to assessments to include but not limited to assessment on the following domains: School and Educational, Medical, Hospitalizations (Mental, Medical, etc), Trauma events and impacts, Mental Health, Developmental

Vendors responding to this prioritized programming should include a blank sample of their assessment if possible.

IDD/DD and TBI

All providers funded under this program priority will be required to flag potential rule out of IDD/DD or TBI for the juvenile being assessed and support with referrals to ongoing appropriate assessments as needed.

Allowable Cost:

This prioritized program is intended to increase the targeted population's ability to access an enhanced and appropriate assessment to ensure a holistic and complete version of the juvenile is being presented in juvenile court. It is the Department's intent to increase this access through Intensive Intervention funding.

All Vendors responding to this prioritized program shall already have the ability to bill MCO Medicaid for the described assessment when appropriate. The following bullets describe the allowable invoicing costs under this prioritized programming:

 Juvenile Justice Community Programs will negotiate a reimbursement rate with awarded Vendors per assessment, in full or in part for coverage. If MCO Medicaid has covered the cost of the assessment and the provider is invoicing for additional cost associated with court

- appearance or the like (described in a following bullet), then the reimbursement from MCO Medicaid must be attached to the partial invoice.
- All providers requesting reimbursement for the full cost of the assessment from Juvenile Justice Community Programs must submit evidence that other reimbursement routes were attempted and denied first OR that the juvenile is uninsured or underinsured and does not qualify for Medicaid or other coverage.
- Providers may bill Juvenile Justice Community Programs the difference in cost between the assessment cost reimbursed by MCO Medicaid and assessment activities deemed necessary for the juvenile's assessment. Those activities include: required court appearances for the juvenile assessed, participation in court ordered care reviews for the juvenile assessed, collateral contacts deemed necessary for the assessment, or extensive travel to conduct face to face assessments.
- Juvenile Justice Community Programs will reimburse up to the agreed upon reimbursement rate with each awarded Vendor, full or in part for coverage. If MCO Medicaid has covered the cost of the assessment and the provider is invoicing for additional cost associated with court appearance, or the like, then the reimbursement from MCO Medicaid must be attached to the partial invoice.

Data for this prioritized programming follows.

**The data includes Cardinal in the MCO list, but responding Vendors should account for county realignment in their projected numbers to serve

Attachment G: Attestation

Attestation to Viewing the Intensive Intervention Services Request for Proposal Information Session

This document is required for programs not previously funded under Intensive Intervention Services ONLY: Pursuant to G.S. 143B-811, Intensive intervention services are evidence-based or research-supported community-based or residential services that are necessary for a juvenile, in order to (i) prevent the juvenile's commitment to a youth development center or detention facility or (ii) facilitate the juvenile's successful return to the community following commitment. In conducting the evaluation, the Department shall consider whether participation in intensive intervention services results in a reduction of court involvement among juveniles. The Department shall also determine whether the programs are achieving the goals and objectives of the Juvenile Justice Reform Act, S.L. 1998-202.

Accordingly, all programs applying for Intensive Interventions funding must attend an information session before consideration of funding.

WHEREAS, the information session increases the program's understanding of the funding stream;

THEREFORE, ensuring a joint goal between the Department and the provider to ensure appropriate services under the Intensive Intervention funding stream.

FUTHERMORE, increasing the programs understanding of all other expectations and compliance under the funding stream.

New Programs applying to Intensive Intervention Services funding shall attest that they have watched the recording of the information session provided in this Request for Proposal by signing below:
